

AusCAPPS Network Community of Practice

A free online network designed to support clinicians to provide **medical abortion** and **long-acting reversible contraception (LARC)** services.

By joining AusCAPPS, you can:

- Connect with GPs, practice nurses and community pharmacists who have an interest in providing medical abortion and/or LARC in Australia
- Discuss case studies and chat with expert clinicians
- Find providers near you and build local networks
- Keep up to date with education and training opportunities related to medical abortion and LARC
- Get access to the latest evidence-based resources, guidelines, webinars and podcasts
