Primary Care Quality Improvement Community of Practice Webinar #4

HEART HEALTH

This session will give an overview of evidence-based practice for Chronic Heart Failure including pharmacological and non-pharmacological management. We will discuss some of the early findings from BEEM-HF in relation to clinical practice, and the identification of heart failure patients from practice software, including suggestions and discussion for quality improvement.

Additionally, the session will provide an introduction to a new Quality Improvement toolkit for Heart failure in general practice.
