

Tamworth Driver Assessment Education Session – Tips & Tricks

PHN EDUCATION SESSION

SESSION OVERVIEW:

- Review of the assessment pathway for private and commercial licences for individuals with physical and/or cognitive concerns
- When to refer for a specialist assessment and on-road driving test (RMS vs Occupational Therapist)
- Discussion of our approach to assessing the impact of cognitive impairment and physical impairment on driving safety and skills
- Discussion of our professional encounters with individuals with MCI/dementia, acquired brain injury, spinal cord injury, diabetes, restricted mobility and limb amputation
- Opportunity for clinicians to ask questions about the licencing process and discuss difficult scenarios encountered in their own practice
