

Digital Health Foundations

PHN EDUCATION SESSION

Please join us for an education session with our Digital Health Team subject matter expert on setting the foundations for good digital health.

In the session we will cover the following topics:

- Data security
- Secure Messaging
- Cyber security
- Policies and procedures
- Informed consent
- Privacy

Peter Mullen, PHN Digital Health Officer

For the last 4 years, Peter has assisted general, specialist and allied health practices in implementing a range of digital health solutions. Peter has a background in management, education and finance and having managed a nine- doctor rural general practice has firsthand experience in the value digital technologies add for practices and patients.
