

COVID-19 Infection Control, PPE and Respiratory Presentations

PHN & HNELHD EDUCATION SESSION

With the extension of the lockdown affecting broad areas of NSW, and the continuing increase in the number and severity of COVID-19 infections, the demands on health services and healthcare workers are extensive. This session is for all general practice and primary care providers.

This session will discuss the following:

- How to triage patients/ what questions to ask
- Strategies for the waiting room
- PPE required for staff members dependent on the type of patient contact
- How to see respiratory presentations
- Sharing tips on working from home if Doctors are in self-isolation
- Fit testing of masks

SPEAKERS: **Dr John Ferguson** (Director, Infection Prevention Service, Senior Staff Specialist, Microbiology & Infectious Diseases, HNELHD)

Dr Michelle Redford (General Practitioner, Blackbutt Doctors Surgery)

Dr Joanne Wood (General Practitioner/ Clinical Director, Hunter Primary Care)

John Baillie (Executive Manager, HNECCPHN).

WHO: **General Practitioners, Nurses, Aged Care Staff, Allied Health Providers**

WHEN: **Tuesday 10th August 2021, 6:30 pm – 7:30 pm**
