

THE CAPACITY TRACKER

Managing and monitoring COVID-19 vaccination operations using Capacity Tracker's new vaccination module

PHN EDUCATION SESSION -
MASTERMIND

Capacity Tracker is a free online tool that enables General Practices and Residential Aged Care Facilities to communicate with the PHN quickly and easily about any issues that currently or potentially impact their operations and activate PHN support.

Our facilitator, PHN Project Officer Hannah Lane, will present the new Capacity Tracker vaccination module and describe its development, features and functions, and how your practice can benefit from using it.

Learning outcomes:

1. Understand the purpose of Capacity Tracker generally, and the vaccination module specifically,
2. Understand the importance of updating data at least weekly,
3. Understand the data to be provided in the vaccination module,
4. Know how to register, log in and update data, and
5. Know where to find additional information, resources, and tools.

SPEAKER: Hannah Lane (PHN Flexible Project Officer)
WHO: General Practitioners, Practice Nurses, Practice Managers
WHEN: Wednesday 17th March 2021, 1.00 pm – 1.30 pm
WHERE: Via GoToWebinar
