

An introduction to Central Coast Health@Home

PHN EDUCATION SESSION

Dr Elly Warren, Medical co-Director of CCLHD's Central Coast Health@Home, will give an overview of the service and explain how your clinicians can help facilitate hospital avoidance for people with suitable acute conditions. The highly skilled multidisciplinary team (Senior Medical Officers (GPs), Nurses, Allied Health and Pharmacist) provides hospital-level care at home. The service is free and funded via NSW Health.

Learning Outcomes:

- Describe each of the Central Coast Health @ Home programs
 - Hospital in the Home (HITH)
 - Virtual Care and Triage Team (VCaT)
 - Rapid Access to Care and Evaluation for the elderly (RACE)
 - Long Jetty Urgent Care Centre
- Describe what conditions can be managed by each of the above CCH@H programs
- Describe how to refer to CCH@H
- Brainstorm how to strengthen links between Primary Care and CCH@H to improve patient outcomes and avoid hospital admissions

SPEAKERS: Dr Elly Warren, Medical Director, GP Staff Specialist, Central Coast Health @ Home.

Dr Warren has worked as a GP on the Central Coast for more than 8 years. She has shared her time between Your Family Doctors in Erina and Yerin Eleanor Duncan Aboriginal Health Centre in Wyong. She is now Medical co-Director of Central Coast Health@Home at CCLHD, Gosford and Wyong Hospitals. She holds many external advocacy roles for patients, colleagues, and our community, including current Chair of Central Coast GP Collaboration Panel. She is passionate about improving health outcomes for people living on Darkinjung country.

WHO: Practice Managers, Practice Nurses, Aboriginal Health Professionals, GPs, GP Registrars
