

LUMOS: Insights and Opportunities

PHN EDUCATION

This Mastermind session will demonstrate to general practices how LUMOS provides significant insights into how patients interact with the health system outside of your individual practice. Lumos provides individualised practice data that is comparable against deidentified averaged data sets with other participating practices across NSW, covering a variety of different indicators. This supports data driven decision making which assists in focused quality improvement processes where they're most needed.

What will be covered:

- Benefits of data driven decision making
- What the data has told us so far
- Interpreting 3 key areas of your individual practice report

SPEAKER: James McNeill, Primary Care Improvement Officer, HNECCPHN, Quality Improvement LUMOS Subject Matter Expert

WHO: GPs, Practice Managers, Practice Nurses and Aboriginal Health Practitioners/Workers and Allied Health Practitioners

WHEN: Wednesday, 22nd March 2023

TIME: 1.00pm – 1.30pm

RSVP: Please [CLICK HERE](#) to register for the online platform via GoTo Webinar
