

# Gender Diversity in Young Persons

## PHN EDUCATION SESSION

Join us for an online session where participants will look at Gender Diversity in Young People. This presentation will look at the difficulties encountered by gender diverse young people and the role of the GP to deliver care. This session will also look at the services that are available in the community to support GPs when they are having young people present with gender concerns.

The session discussion will include the following issues:

- Difficulties encountered by gender diverse young persons
- Stigma
- Role of the GP during consultation to deliver holistic care to the young person
- Knowledge of the topic
- Explore what a GP can do in relation to screening tests
- Role of Body image /eating disorders
- ASD and gender dysphoria
