

# There's no place like home - Hospital avoidance strategies for general practice

## PHN EDUCATION SESSION

Join us for this Mastermind session during *Nursing in the Community Week*. In this session we will focus on the role of Primary Healthcare Nurses in the potentially preventable hospitalisations of practice patients.

The session will discuss the following topics:

- Define what constitutes a potentially preventable hospitalisation
- Identify patients most at risk for potentially preventable hospitalisations
- Consider hospital avoidance strategies for General Practice, especially in the current climate impacted by COVID-19

**SPEAKERS:** Sarah Hoolihan (HNECC PHN Primary Care Improvement Officer),  
James McNeill (HNECC PHN Primary Care Improvement Officer)

**WHO:** Practice Nurses, GPs, Clinicians, Practice Principals

**WHEN:** Wednesday 15<sup>th</sup> September 2021, 1.00 pm – 1.30 pm

**WHERE:** Online via GoToWebinar

**RSVP:** Please [click here](#) to register
