

Sexual Assault Responses

PHN EDUCATION SESSION

Providing best practice guidelines in line with NSW Health policy and practice in responding to children, young people and adults who have, or may have, been sexually assaulted and their families, carers and significant others. Outline medical care follow up recommendations by GP's, including acute and non-acute crisis response, medical and forensic care and management and ongoing interventions and support to clients.

The following issues will be discussed during the presentation:

- Overview of sexual assault services
- Responding to children, young people and adults who have, or may have, been sexually assaulted and their families, carers and significant others
- Outline medical care follow up recommendations by GPs including;
 - acute and non-acute crisis response,
 - medical and forensic care
 - management and ongoing interventions and support to clients.

SPEAKERS: **Amanda Baxter** (Team Leader – Consultation & Assessment Team (CAT) and Safeguards Team, CAMHS). Amanda has been working as a Sexual Assault Forensic Nurse Examiner since 2014, since completing a Graduate Certificate in Medical and Forensic Management in Adult Sexual Assault.
