

# Wound Care 101 - Central Coast GPs

*An initiative of the Central Coast General Practice Incentive Fund*

## PHN EDUCATION SESSION

This presentation will help you identify patients at risk for development of wounds and wound complications; learn how to assess and to treat wound problems once they develop including which wound dressing options to use to manage non-viable tissue, biofilm, exudate and wound-related pain.

### Learning objectives:

- Gain insight regarding the need to treat the whole person when formulating care plans for patients with wounds.
- The importance of wound diagnosis.
- Examine cost-effective and practical treatment strategies for management of wounds.
