

FACING THE FUTURE TOGETHER 2022

General Practitioner Breakfast Facing the Future

Presented by Dr Catherine Palmqvist

Dr Catherine will be discussing the challenges and hindrances GPs face currently and how to address them into the future. This presentation will look at our ageing population and the complex diseases within this patient group, considering how GPs being better engaged in the palliative care space can address this. There will be a specific focus on opioid prescribing for patients at end-of-life, as well as broader discussion about the inspirations and aspirations for the future GP workforce.
