

WOULD YOU LIKE SUPPORT TO IMPROVE CERVICAL SCREENING PARTICIPATION IN YOUR PRACTICE?

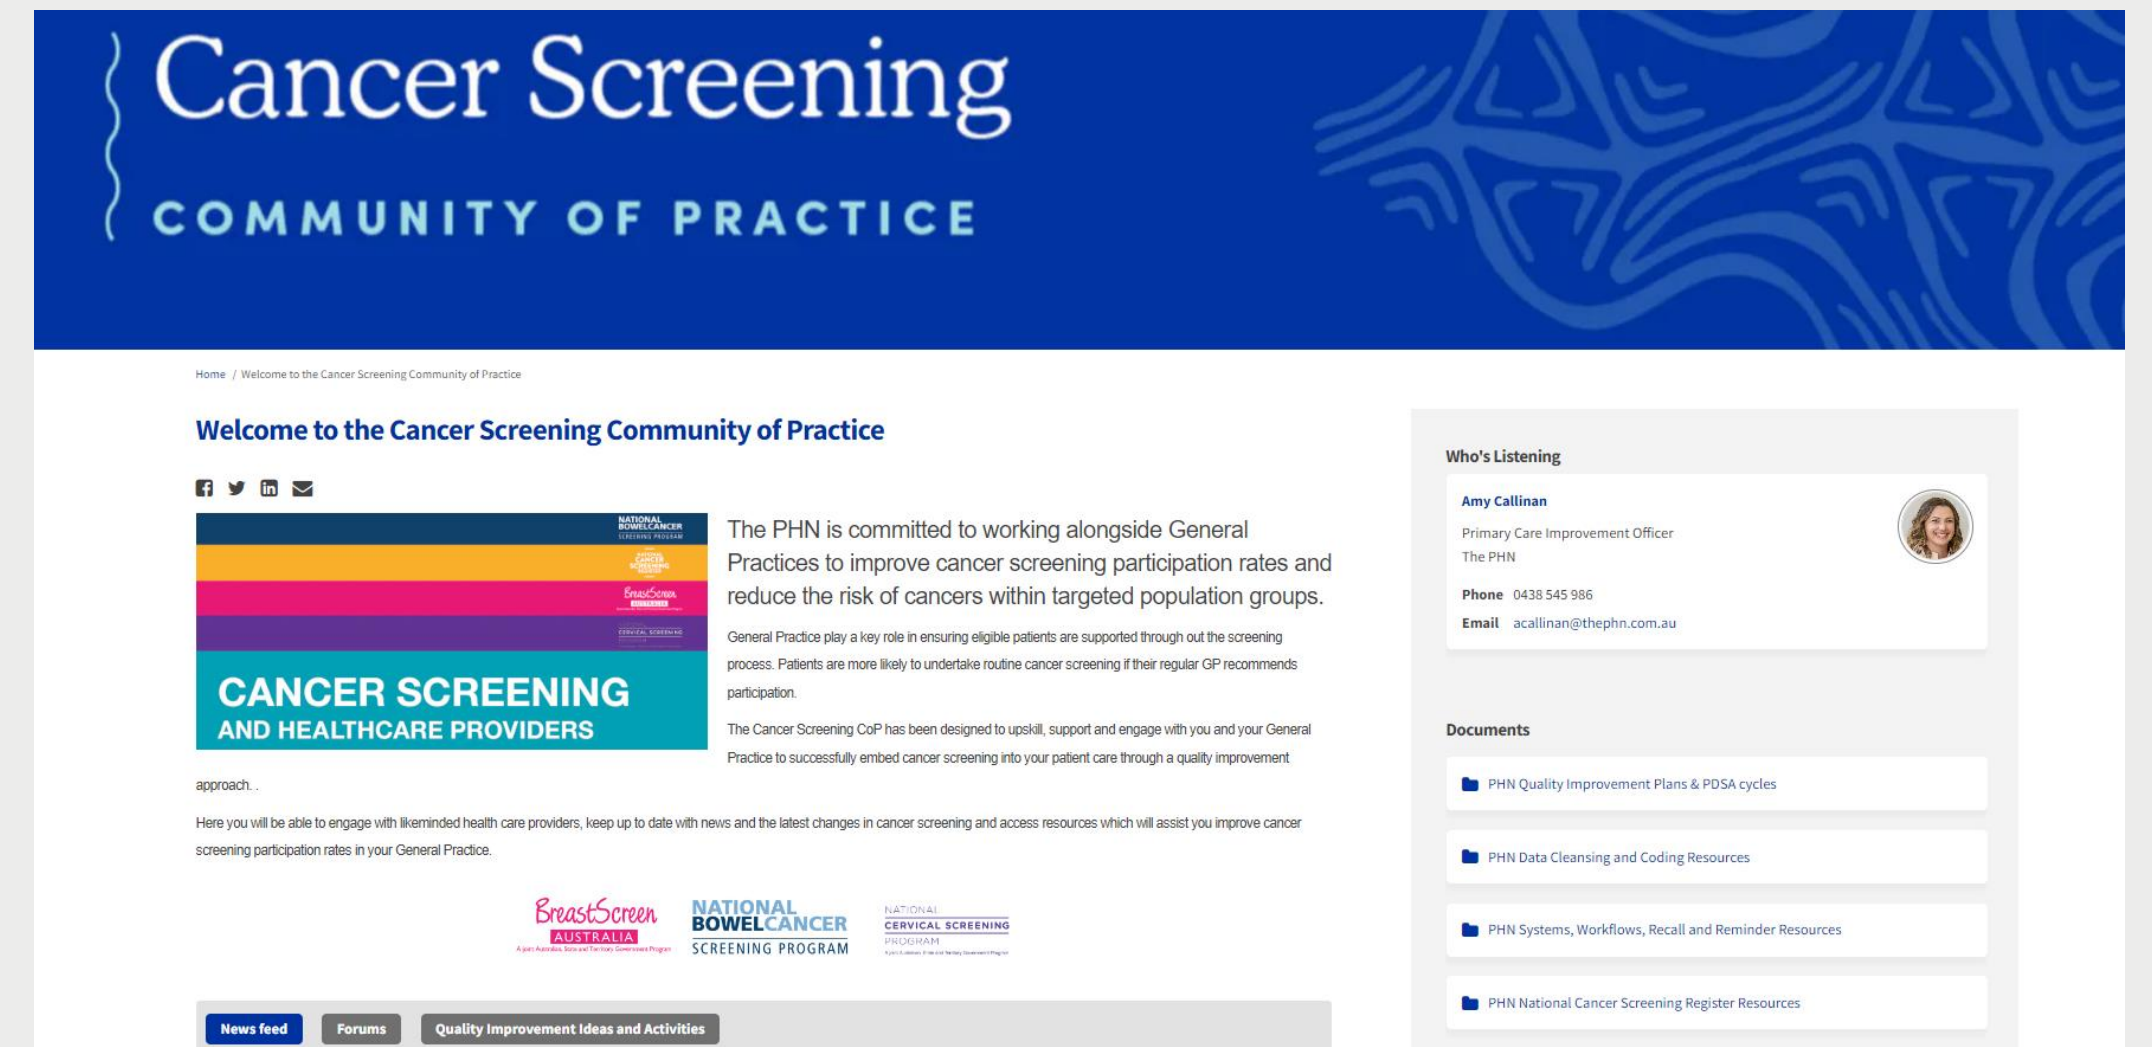

We can support you:

1. Establish accurate cervical screening participation rates;
2. Analyse and interpret cervical screening data through CAT 4 and PHN Dashboard Reports;
3. Identifying patients who are overdue and or never screened;
4. Access and maximise the functions of the National Cancer Screening Register;
5. Develop robust recall and reminder workflow systems and,
6. Implement effective patient engagement strategies

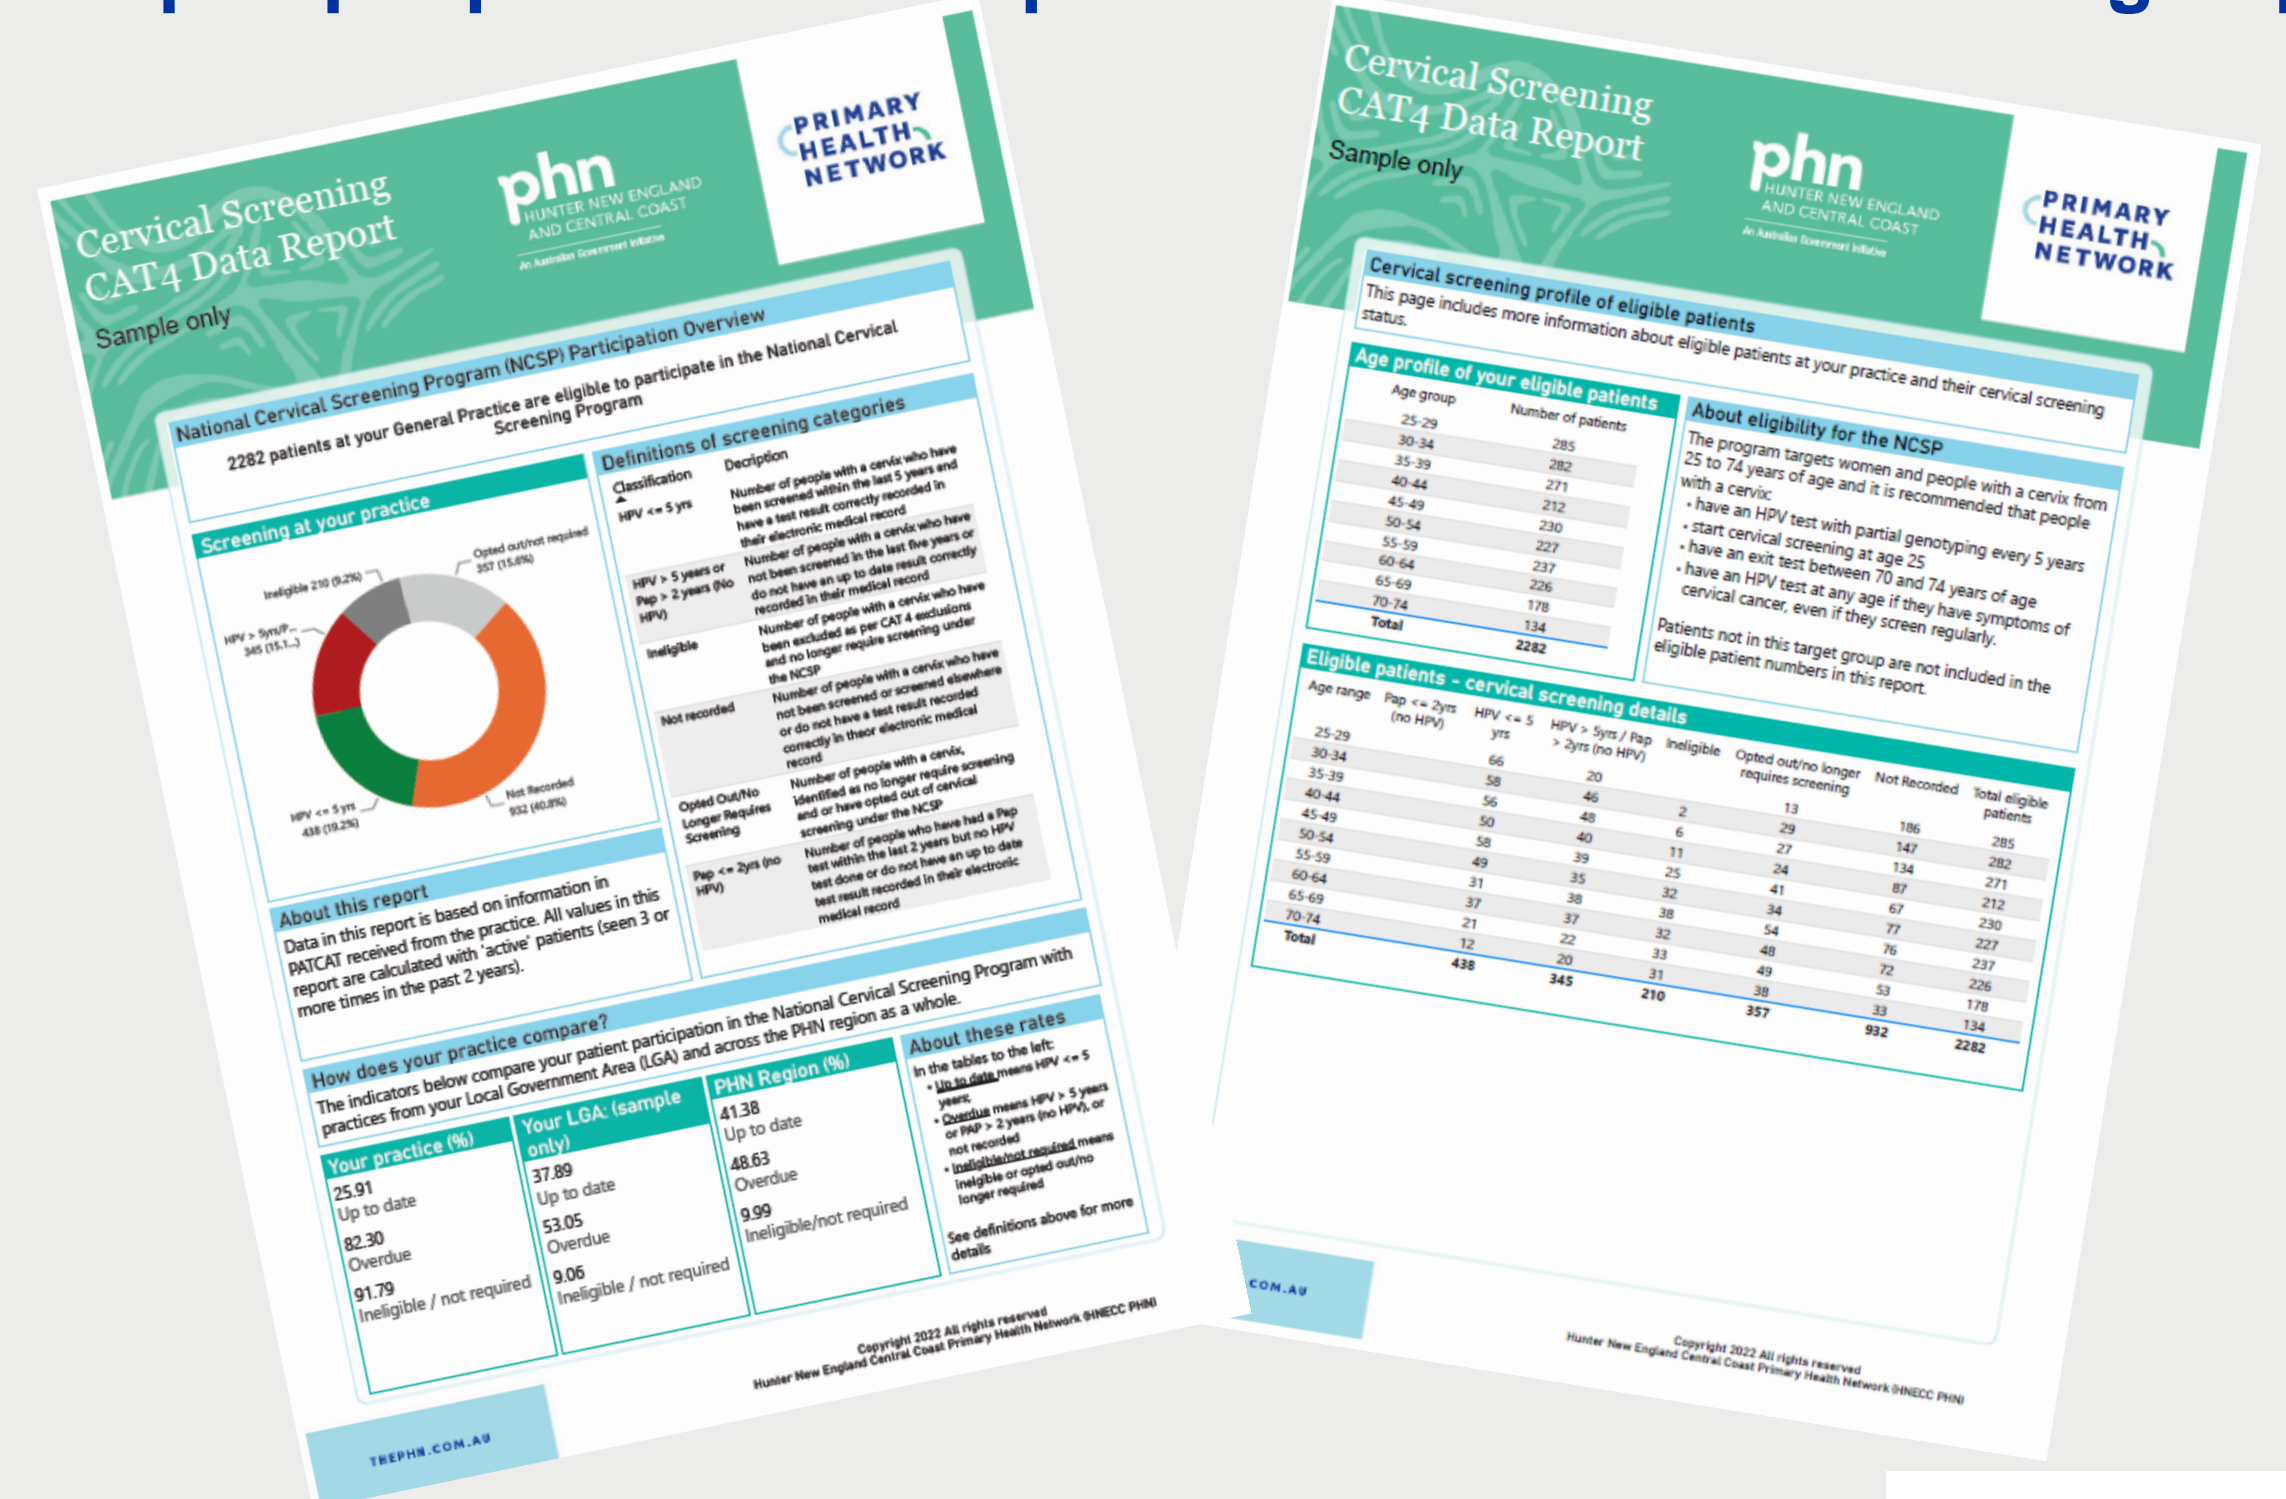

Undertaking this activity will assist with compliance against:

- › **QUALITY IMPROVEMENT PRACTICE INCENTIVE PROGRAM**
 - **QIM9: proportion of female patients with an up-to-date cervical screening**
- › **RACGP STANDARDS FOR GENERAL PRACTICE (5TH EDITION) ACCREDITATION**
- › **MY HEALTH RECORD PRACTICE INCENTIVE PROGRAM**
 - **Requirement 3: Data Records and Clinical Coding and secure messaging**

General Practices within our region have improved up to date cervical screening participation rates by 40% in a 3 month period undertaking these activities.
