Who is eligible for catch - up in school program?

Year Cohort	Consent signed	Use
Year 8	2022	
Year 9		
Year 11		1
Year 12	MenACWY	1

Any student with a signed consent!!

We're online!

School Vaccination clinicians now use iPads to:

- retrieve student consents
- record vaccination details.

Added benefits of being online:

- access to student Air record during clinic
- vaccination records uploaded to AIR the day of clinic – real time accurate records!

Missed doses at school clinics?

Our school teams make the most of every opportunity & will offer catch up vaccinations at every school visit.

But.....

Some students prefer to attend their GP

Please ensure ALL adolescent school-based vaccines given at GP are uploaded to AIR in a timely manner.

Human papillomavirus (HPV) vaccine

Changes under the National Immunisation Program
in 2023

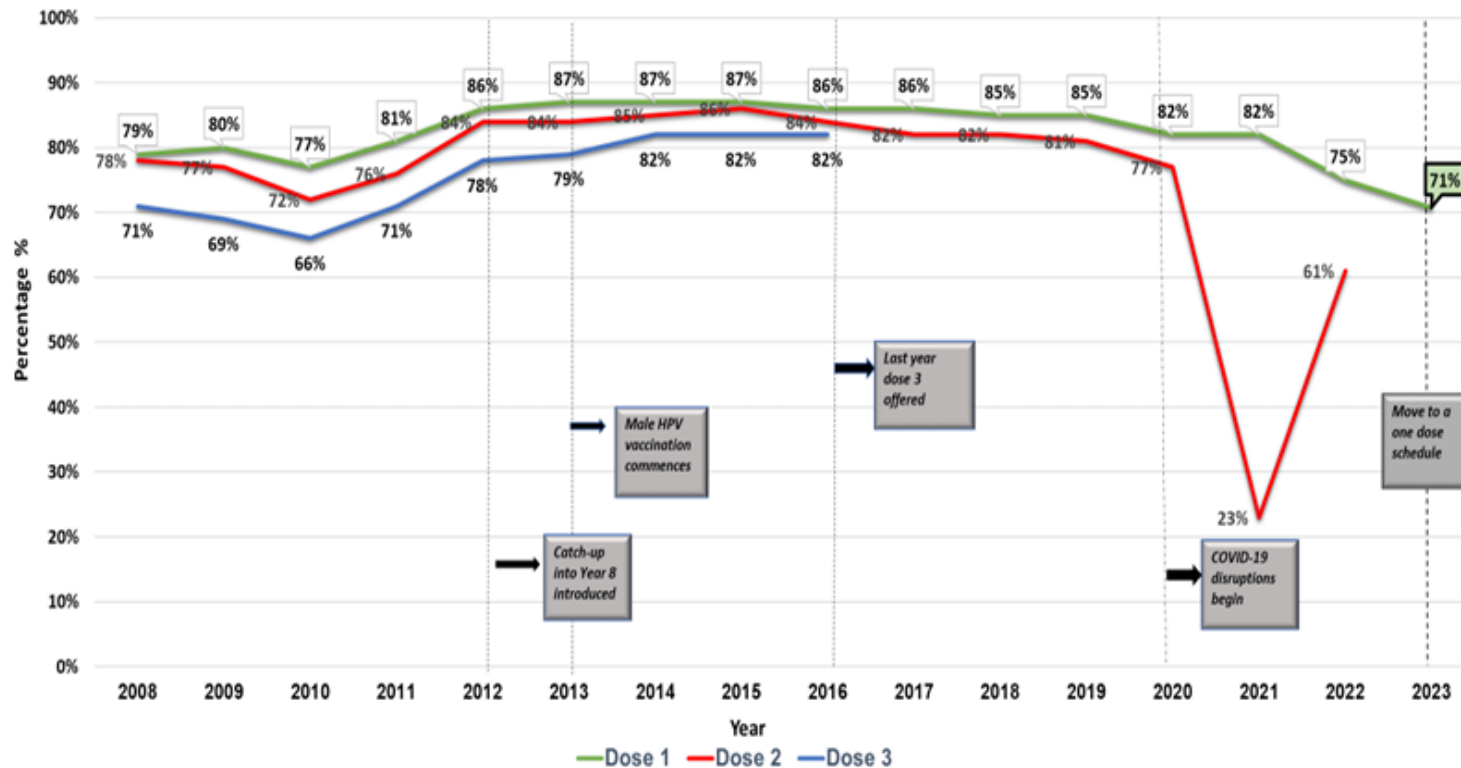

Australia HPV dosing schedule changes as of 6th February 2023

- HPV Single dose
- HPV Catch up extended up to and including 25 years of age
- HPV Anyone who receives a single dose before 26 years of age are now considered fully vaccinated – NO further doses needed.
- HPV Immunocompromised should still receive 3 doses of HPV vaccine

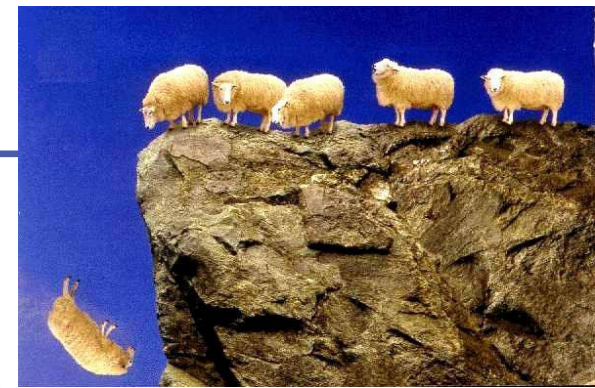

HPV Females

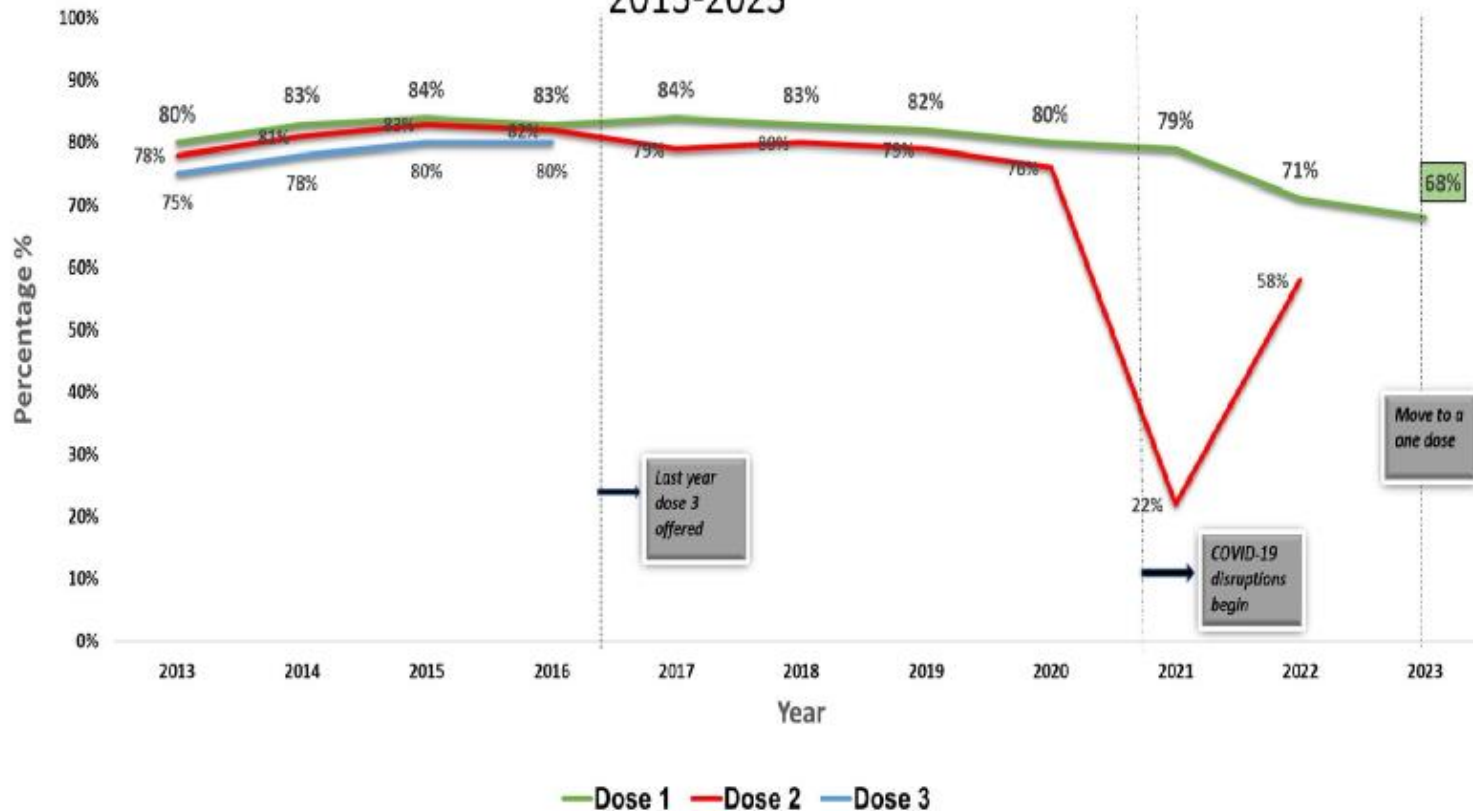

Historical HPV Vaccination Coverage, Female Students, Year 7, 2008-2023

HPV Males

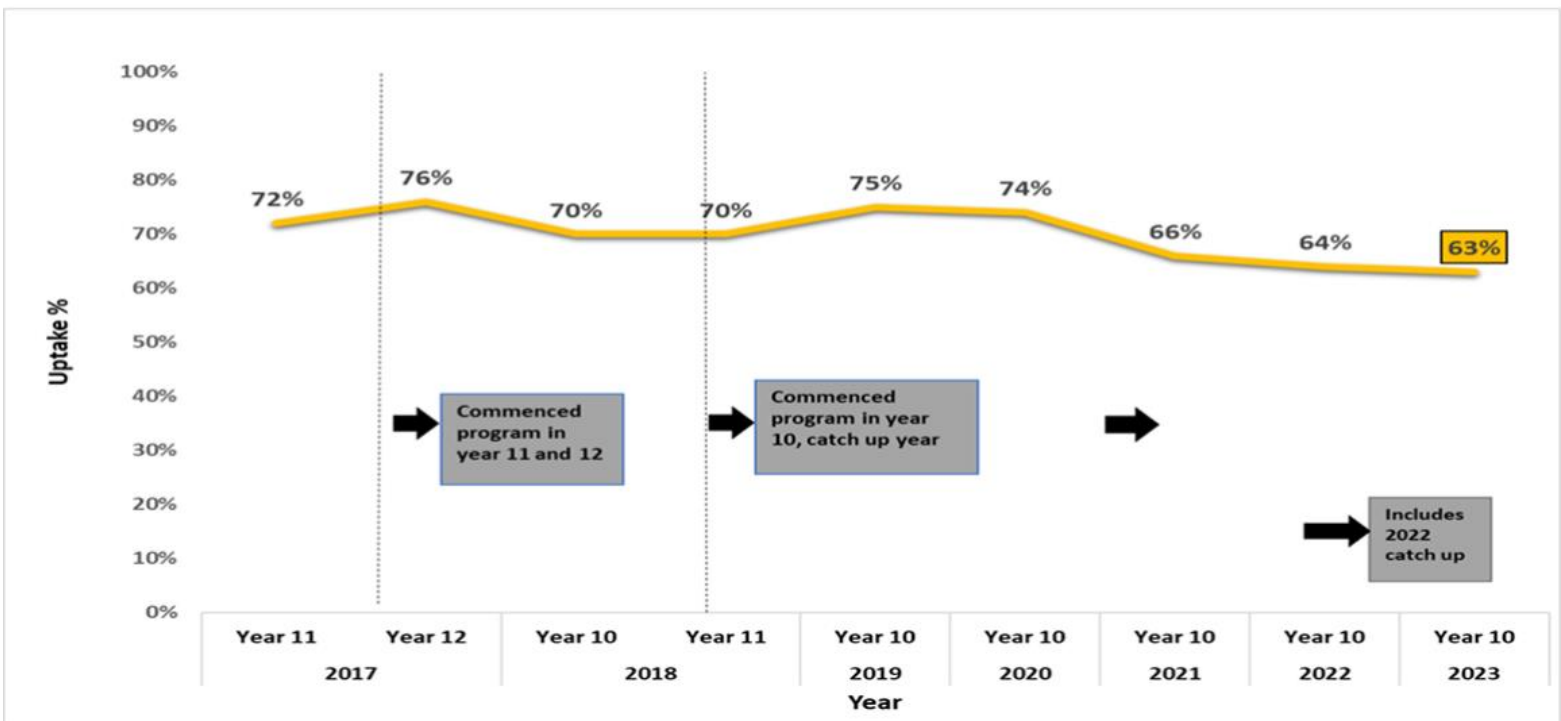

Historical HPV Vaccination Coverage, Male Students, Year 7,
2013-2023

Meningococcal ACWY

Historical Meningococcal ACWY Coverage, 2017-2023

Elimination of Cervical cancer by 2035

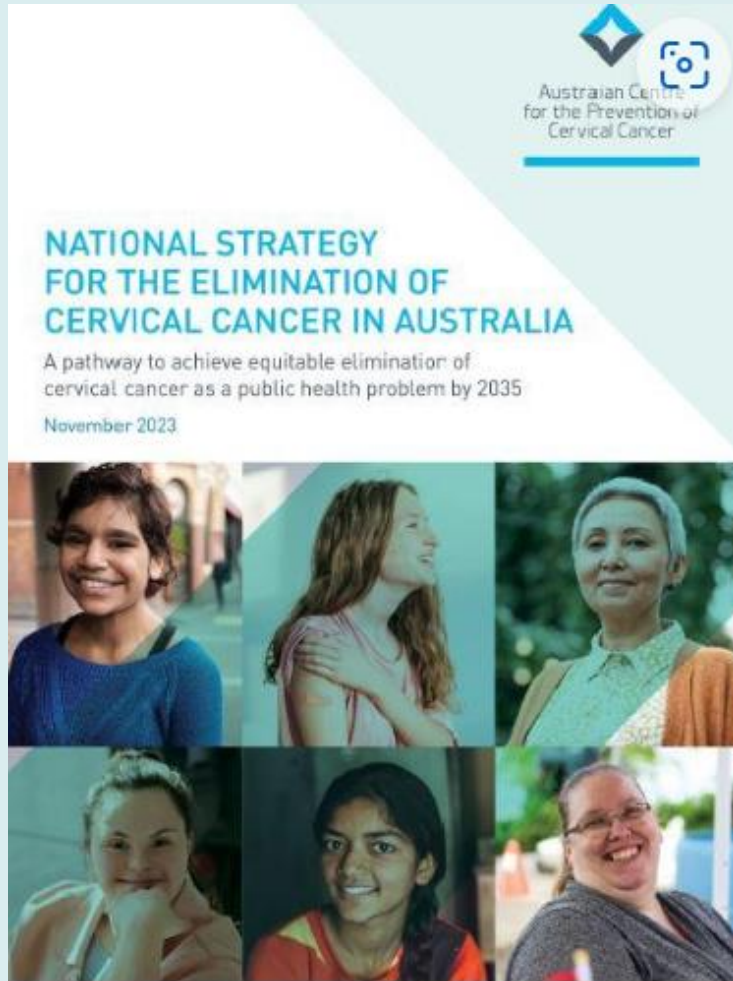

Australia set to be the first country in the world to do so!

We need to aim for

90% of girls & boys vaccinated by the age of 15yrs

We can achieve great things if we work together!
