

Incentives for telehealth

PROJECT BENEFICIARIES

General practice and Allied Health who have completed the PHN Digital Health Maturity Assessment and their patients.

IDENTIFIED REGIONAL HEALTH NEED

Reduced access to services in rural and remote areas.

Access to and utilisation of Digital Health and Telehealth in Service Delivery.

PROJECT AIM

The project aims to provide incentivised training to enable general practices and allied health clinicians to increase telehealth capability and use by identifying, training and supporting general practice digital health champions.

2023/2024 PROJECT OBJECTIVES

1. Identify and theme the existing use of telehealth in General Practices and Allied Health practices.
2. Undertake stakeholder consultation and identify telehealth champions in practice.
3. Develop appropriate incentives and training material in partnership with others.
4. Provide training for the telehealth champions to advocate for the use of telehealth in practice.

CLINICAL AND COMMUNITY GUIDANCE REQUIREMENTS

As part of this project we will be consulting with a number of advisory and reference groups.

PROJECT PARTNERS

We're looking to work with external partners and subject matter experts to achieve this project.

RESPONDING TO WHICH STRATEGIC CHALLENGE

Enhance the primary care workforce and incorporate digitally assisted services.
