Mr Tomas Megalaa (PhD student) | Email: tmeg0836@uni.sydney.edu.au

I agree to take part in this research study. In giving my consent, I confirm that that:

- The details of my involvement have been explained to me, and I have been provided with a written Participant Information Statement to keep.
- I understand that the purpose of the study is to determine clinicians' perceptions, current practices and attitudes to treatment and prevention of lateral ankle sprains.
- I acknowledge that the risks and benefits of participating in this study have been explained to me to my satisfaction.
- I understand that in this study I will be required to answer a survey that will take approximately 10-15 minutes to complete.
- I understand that being in this study is completely voluntary.
- I am assured that my decision to participate will not have an impact on any relationship with the research team or the University of Sydney.
- I have been informed that the survey is anonymous.
- I understand that I can withdraw any time before I submit my answers. I understand that once responses are submitted, they cannot be withdrawn because the responses are anonymous, and the researchers will not be able to tell which ones are mine.
- I understand that the results of this study will be published, and that publications will not contain my name or any identifiable information about me.
