

General Practice Comprehensive Dashboard

Mental Health

The "Indicated Mental Health with no diagnosis" Report, found in CAT4, will display the likelihood of a Mental Health condition based on a mental health medication or a mental health care plan being recorded in the patient record without a diagnosis. Any mental health diagnoses included in the existing CAT4 reports/filters is considered regardless of whether the diagnosis is marked as active or inactive in the patient record.

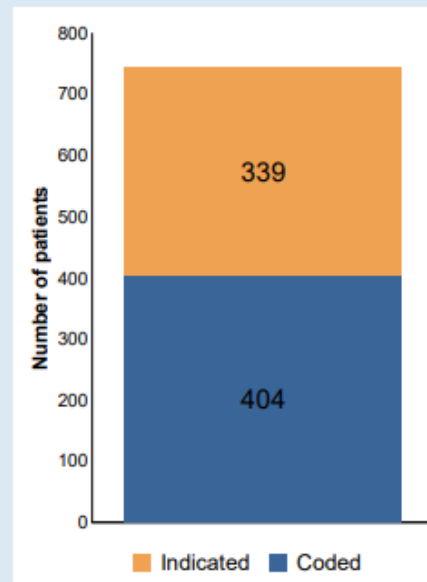

- Red = likely
- Orange = possible

The report displays

- Mental health medication, mental health MBS item numbers and the resulting likelihood
- Chronic disease co-morbidities
- Other Mental health risk factors.

The PHN has created a Model for Improvement that details how to increase the proportion of patients who have an accurate mental health diagnosis coded in their patient file.

MENTAL HEALTH

Indicated Mental Health with no diagnosis

The "Indicated" group includes patients with a likelihood of having a Mental Health condition based on a mental health medication or a mental health care plan being recorded in the patient record without a diagnosis.

For more information see:

<https://help.pencs.com.au/display/CG/Indicated+Conditions+Report+Details>

Tip - search 'indicated conditions report details' on the <https://help.pencs.com.au> to find more information.

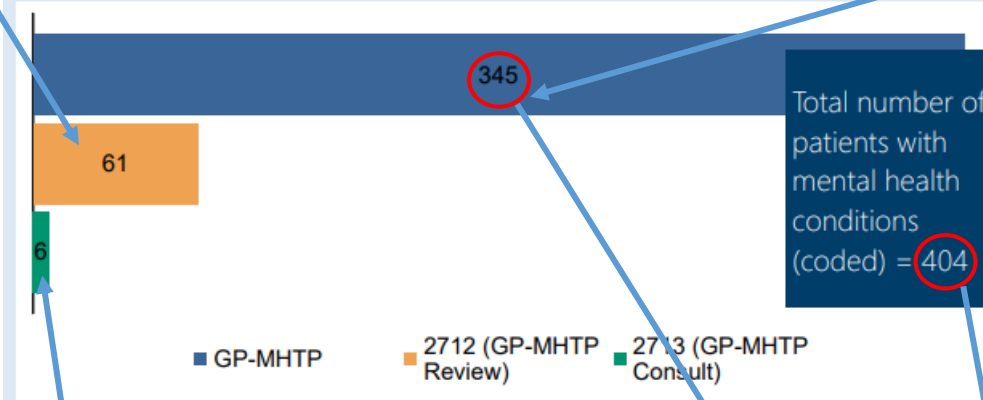

Mental Health Treatment Plan Review

The middle row outlines the number of patients that have been billed for a GP Mental Health Treatment Plan Review item number.

To identify patients eligible for a Mental Health Treatment Plan, please search for 'mental health treatment plan review' on the [PenCS website](#).

The Medicare item descriptor notes that the treatment plan should be reviewed **at least once**.

MENTAL HEALTH CARE TREATMENT PLANS, REVIEWS, AND CONSULTS

GP Mental Health Treatment Medicare items include:
 MBS items 2700, 2701, 2715 or 2717 - Preparation of a GP Mental Health Treatment Plan (effective from 1 November 2011);
 MBS item 2712 - Review of a GP Mental Health Treatment Plan; and
 MBS item 2713 - GP Mental Health Treatment Consultation.
 For details see:
<https://www1.health.gov.au/internet/main/publishing.nsf/Content/pacd-gp-mental-health-care-pdf-qa>

Mental Health Treatment Plan

The top row outlines the number of patients that have been billed for a GP Mental Health Treatment Plan item number.

To identify patients eligible for a Mental Health Treatment Plan, please search 'mental health treatment plan' on the [PenCS website](#).

Vocationally Registered (VR) GPs who complete the requirements of Mental Health Skills Training **may be eligible to claim at a higher MBS rebate**. Please visit the [General Practice Mental Health Standards Collaboration](#) for more information on available training.

GP Mental Health Treatment Consultation

The bottom row outlines the number of patients that have been billed for a GP Mental Health Treatment Consultation.

The GP Mental Health Treatment Consultation item is for an extended consultation with a patient where the primary treating problem is related to a mental disorder, including for a patient being managed under a GP Mental Health Treatment Plan. This item may be used for ongoing management of a patient with a mental disorder.

Tip - Comparing the no. of patients with a coded mental health condition and the number of Mental Health Treatment Plans billed is a quick way to see how many patients may be eligible for a treatment

For information on billing please visit [MBS Online](#) and search for 'GP mental health treatment items'.
