

Psychosocial Grants 2024 Information Session

PHN GRANTS PROGRAM

The Hunter, New England and Central Coast Primary Health Network (PHN) will make available \$1 million in funding for psychosocial grants for evidence based non-clinical psychosocial programs that will assist in increasing individual and community wellbeing, providing much needed low intensity mental health options. Each grant receipt will be funded between \$50,000 - \$200,000. Please [click here](#) for more information.

Applications will be sought from organisations who have the capacity to deliver evidenced based non-clinical innovative and/or new styles of mental health and well-being programs that will assist in:

- promoting mental wellness through awareness and prevention
- reducing stigma and discrimination
- supporting recovery and social inclusion
