If you thrive in an innovative, supportive and professional environment then this opportunity could be for you.

You will have the opportunity to:

- * pilot an innovative brief intervention model for parents/carers/families of children, adolescents and young people with an eating disorder.
- * provide clinical leadership in the development and delivery of eating disorder specific care to clients and families in the health, education and welfare sectors.
- * promote cultural change and awareness of eating disorders.
- * build capacity of generalist services to deliver early identification and early intervention in both inpatient and community settings for 0-24 year olds with eating disorders.

Applications to NSW HealthJobs by 23:59 Sunday 4th August 2024.
